

# Minotour Battery Box

Available Popular Options

The Minotour battery box is a very popular sales code on the DRW product line. It was used on approximately 70% of the DRW units built in 2019.

Features and Benefits

- The box is easily accessible just below the floor level of the bus behind the entrance door or driver's door depending on the bus model selected.
- The steel tray has roller bearings to provide convenient service of the existing batteries.
- A battery shutoff switch is provided in the box for quick power disconnection. It is the only way to order a shutoff switch on the Minotour.
