

In September 2019, we reintroduced to you The Next Generation Perimeter View 360° (PV360), bringing enhanced technology to our Saf-T-Liner C2. Since that time, the option has been ordered on 1,007 units to date! This data reinforces the importance of safety in the minds of you and all of our customers. If you are not familiar with this system, please review the benefits of option D4236-00-000 below. You will also note, using the Popular Options Brochure, the PV360 Camera is listed as a Thomas Built Buses Advantage Option, meaning TBB is the only OEM to provide an on-line perimeter view installation system.

Clearly see what matters most.
